From the President ISRC

Dear members,

We have great pleasure in presenting the Second edition of the Life Membership Directory of our ISRC. The earlier one was brought out in 2001.

This Directory includes many new features which would be of use to our members. The need for an up to date Life Members Directory was keenly felt for quite a long time. In spite of our best efforts for nearly a year, it has not been possible to collect all the intended details from all the members. The Executive Committee decided to go ahead with the available data to translate the idea to reality. Information gathering from all the life members was attempted through postal communication, e-mail, website and even personal contact wherever possible. Complete details have been given for those members who have responded to our communication. List of other members, with available information is also presented to complete the Membership Directory. This publication also covers information on major past events, publications, byelaws etc which will be of immense use to our members. I take this opportunity to thank all the members for their contribution towards this Directory. My special thanks to the office bearers who have taken extra pains to realize the long cherished idea.

Dr. M. Anantharaman
